

Access to Tesco Stores for Locum Pharmacists.

The purpose of this communication is to ensure that Locum Pharmacists can gain speedy and efficient access to stores where possible.

What Locum Pharmacists need to do:

1. Approach Tesco colleague who is managing the entry/exit queue system at the front door of the store; maintain social distance etiquette of 2m
2. Present identification and explain reason for gaining entry (Duty Pharmacist)

Note: You may need to wait a couple of minutes depending on the volume of customers already in store at time of arrival

What Tesco will do:

1. Prioritise Locum Pharmacists at front of the queueing system
2. Ensure a speedy entry process, however primary priority will be to maintain social distancing and volume of customers in store.

Thank you for your ongoing support during these challenging times,

Aoife Mac Curtain,

Superintendent Pharmacist, Tesco Ireland
